

DeCarey Incinerator Adopted by the Council

Plant Will Be Installed
Next Summer to De-
stroy City Refuse.

It took the council nearly four hours last night to decide which particular brand of incinerator the city should use to destroy its refuse.

The order has been "in the air" so to speak for nearly a month. Tenders were called for and several firms put in bids. Only two of the bids were considered, the DeCarey and the Heenan & Froude.

The mayor and Commissioner Pace put in a commissioner's report favoring the adoption of the DeCarey system. Commissioner Kinnaird and the city engineer put in an adverse report favoring the Heenan & Froude. Mr. DeCarey, manufacturer of the DeCarey system, Commissioner Kinnaird and the city engineer put in an adverse report favoring the Heenan & Froude. Mr. DeCarey, manufacturer of the DeCarey system, Commissioner Kinnaird and the city engineer put in an adverse report favoring the Heenan & Froude.

On Thursday Mr. Taunton arrived and last night the whole subject was reopened and the city aldermen settled back for a long session. There was Alderman Pearce as acting mayor, with Aldermen Bellamy, Manson, Mays, Calhoun and Latta on the benches. The secretary-treasurer had a table littered with plans, charts, blue-prints, tenders and specifications. The destructor representatives had whoa reams of recommendations, testimonials and opinions of one sort and another which they arranged in order of discharge.

The Heenan & Froude man opened fire with the first battery by placing before the council a communication, which looked like a supplement to his tender, guaranteeing his plant for fifteen years, and undertaking to replace any defective material or faulty construction.

Alderman Mays objected to this codicil on the grounds of fairness. He said it was hardly the proper thing to receive tenders and then after the tenders had been opened to allow one of the tenderers to supplement his tender.

Mr. Taunton protested that he was not supplementing his tender—that he had stated in his tender that the Heenan & Froude people would give any reasonable guarantee and that this now was their interpretation of what constituted "a reasonable guarantee." This explanation looked quite reasonable.

BYLAW PASSED.

At the city council meeting last night two formal by-laws were passed, the first being an amendment to the fire by-law and the second the rate levy by-law.

The fire by-law was for the purpose of providing that permits be taken out for all buildings about to be erected within the city.

It has heretofore been presumed that such was the case but it was discovered recently that the by-law was defective and that the only place where the building inspector had absolute jurisdiction was within the fire limits. Last night's alteration changes all that, and now anyone who undertakes to build in any part of the city, and fails to take out a permit is liable to a severe fine.

The rate levy by-law merely provides for the levying of the taxes in conformity with the 1912 mill rate adopted by the council at the last meeting. The poll tax rate was put at \$2, and on motion of Alderman Calhoun a clause was added making the 5 per cent rebate apply to poll tax paid previous to Nov. 30th, the same as any other taxes.

The consensus of opinion of the council seemed to be that the Heenan & Froude had all the best of it on the first count, whereas the DeCarey had the best of it on the second count. The agents themselves realized this at once and centred all their attention on the two points. Time was extended three times and it was 12.20 when the argument for both sides was all in.

Then Ald. Calhoun moved that the report of the commissioners recommending the DeCarey system be adopted. Ald. Latta seconded the motion and Alderman Mays voted with them, carrying the motion. Alderman Bellamy and Manson voted against, meaning for the Heenan & Froude.

By this motion the council undertakes the purchase of a 50-ton garbage destructor costing \$40,500. The DeCarey people guarantee their plant to do the work and failing this they name the full amount of their tender as the amount of their forfeit. They undertake to install the plant in a brick and steel building, everything complete and ready for work, within 120 days of the date when they receive the order.

Prior to finally placing the order the council has to decide upon a site and the ratepayers pass a by-law providing for the raising of the \$40,500.

Alderman Bellamy, who said that the man should have a chance to explain his guarantee so long as he did not change his price. But as the discussion branched from here to a general debate on the respective merits of the different destructors, the supplementary feature was largely overlooked.

Mr. Taunton had the floor for ten or

B.C. Tragedy

TWO DEAD, ONE WOUNDED.

Deadly Work at Greenwood—Murderer is Still at Large.

Greenwood, P.C., Oct. 19.—James A. Dale shot and killed Peter Godeau and Joseph Cello and wounded David Smith.

Godeau and Cello went to Beaverhill to Canal on Sunday night, going to Dale's boarding house for supper. Smith was also there. During the course of the meal a quarrel arose between Dale and the two Frenchmen, Godeau and Cello. It was not considered a serious quarrel, and no such ending was anticipated. After supper Godeau and Cello accompanied by Smith, went to the former's cabin to spend the evening. They had not been there long when they were surprised by a rifle bullet crashing through the window and lodging in Smith's shoulder. Two more shots were fired in rapid succession and the two other occupants of the cabin were stricken; Godeau received a wound in the neck, while Cello was shot in the breast just below the heart. Both men died almost instantly. Smith remained conscious and was able to walk out of the cabin and across to the post office, where he informed some eight men gathered there, of what had happened. Dale meanwhile went into the cabin and viewed his bloody work. He then started for the post office, firing as he went, one of the bullets entering by way of the window, but without doing any damage. Among those inside was Jim Dale, uncle of the murderer. By this time the men had secured arms and went out to secure Dale, but he took refuge in an empty cabin nearby and from his secure post kept his would-be capturers at bay. The man seemed crazy for blood and stood ready to shoot on sight. The night was pitchy dark and the men were afraid to surround the cabin and bring the man to terms lest they shoot each other and add still more lives to the list.

For some time they managed to keep him in the cabin awaiting daylight to come to their aid, but about 1 a.m. he gave them the slip and escaped to the hills.

Since then he has not been seen. He is armed with a repeating rifle and has plenty of ammunition.

Fifteen minutes; then Mr. Bellamy held forth for half an hour; then Mr. Taunton took the floor again, and so on. The two principal points of difference as it appeared from the discussion, were, firstly that the DeCarey used fuel and a low combustion, burning the refuse, whereas the Heenan & Froude used no fuel but a forced draft, cremating it; and secondly that the DeCarey fed from the top, right into the furnace where a suspended grate caught the refuse automatically dumped and hung it over the fire until all the moisture had been evaporated, whereas the Heenan & Froude was fed by hand.

ADDITIONAL LOCAL.

A steamer hydrant is being installed in front of the city hall today.

Mr. H. C. Tolchard of the Canada Permanent Loan Co., has been promoted to the head office in Toronto.

A party of landseekers left this morning with Land Guide Reid for the Pembina River district.

Mr. Chas. Hogg, land guide, left yesterday with a party of four homeseekers for Mewasin.

A light flurry of sleet which fell last night, was cleared away this morning and the weather prospects are a long spell of Indian summer.

A small fire broke out in Mr. Chauvin's house at 11.30 this morning. The roof took fire beside the chimney. No alarm was given.

Mr. F. E. Maroney, accountant for Revillon Bros. in the north, arrived in the city last night. Mr. Maroney was in attendance upon Mr. Charles Roberts through his last illness.

The addition to the Edmonton hotel is almost completed and the whole building repainted. The addition will afford twenty-five more rooms in this oldest of Edmonton's hotels.

Rev. C. W. Corey of Strathcona will occupy the pulpit of the Baptist church on Sunday morning. In the evening Pastor McDonald will speak on "Four Milestones on the Road to Happiness."

One Hundred Drowned In Havana Storm

And Full Returns Will
Probably Lengthen the
Death Roll

(Bulletin Special)

New York, Oct. 19.—A special from Havana to the Evening Telegram states that the cyclone that visited there yesterday was the worst in the history of the city. Over a hundred are known to have been drowned of which sixteen are Europeans and the rest natives. More than a thousand tents in camp Columbia have been blown to atoms and a large number of houses were untended. When the tempest reached its height buildings were shaken as with an earthquake, street cars were washed from their tracks, windows were blown in like paper and roofs and doors were swept away.

Oct. 19, 1906.

REPORT OF COMMISSIONERS.

Since making our former report on the cost of a street railway system we have considered that in order to put it on a paying basis more immediately that it would be better to change the route in order to shorten the trackage and also to bring the line in the more thickly settled districts.

With this idea in view we now beg to submit the following plan, viz: Single track on Namayo from Jasper to Sutherland; thence along Sutherland to First; from First to Jasper and on Jasper a double track from Namayo to Fourth and a single track from Fourth to Twenty-first street. This makes approximately 2-10 miles of single track and 3-5 miles of double track. With the ordinary 60 lb. T rail construction this will cost approximately \$36,754., but as it is understood that street paving is to be gone on with in conjunction with the construction of a street railway system we would recommend that the 100 lb. girder rail be used and on the above distance this would entail an expenditure of about \$14,500.00 more, bringing the total up to \$101,254.

Commissioners.

Oct. 19, 1906.

REPORT OF COMMISSIONERS.

We submit herewith an estimate of the cost of paving with carborundum blocks on the following streets:—

From Jasper to Sutherland on Namayo.

From Namayo to First on Sutherland.

From Sutherland to Jasper on First.

From Namayo to Ninth on Jasper.

The number of square yards on each of these streets is as follows:—

On Namayo avenue, 19,333 yards at \$3.50 per yard, \$67,665.50.

On Sutherland, 7,250 yards at \$3.50 per yard, \$25,375.

On First, 19,555 yards at \$3.50 per yard, \$68,442.50.

On Jasper, 39,463 yards at \$3.50 per yard, \$138,120.50.

Making a total of \$299,633.

Taken together, then, these reports would provide for a single track car

Sanitaris
A Health Protector

Most Typhoid Fever cases are due to drinking impure water. **SANITARIS** guards the whole system against disease.

It prevents Typhoid, because it is absolutely pure.

It prevents Gout and Rheumatism, because it neutralizes uric acid.

It prevents serious Kidney and Liver Trouble, because it cleans and heals and strengthens these organs.

SANITARIS used regularly, is the surest and pleasantest way of keeping well. It is a delightful table water—clear as crystal—sparkling and buoyant.

AT ALL DEALERS.

J. D. MERCER, Agent Edmonton.

LOCAL

—Mrs. E. H. Reid and daughter arrived in the city last evening from Cranbrook B. C. to visit with Mrs. Dr. C. J. Reid.

—The Edmonton Carriage Co. have disposed of their entire business, horses and equipments to Hardisty Bros. The company was organized by Major Eaton six years ago.

—The Harold Jarvis-Graham concert will be held in the Thistle rink on Wednesday, Oct. 24th in aid of the piano fund of the public schools. Seals are now on sale at Archibald's.

Rev. C. H. Huestis, pastor of McDougall church, returns from his visit to the east this evening, and will occupy the pulpit of Grace church at 11 a.m. Rev. A. S. Tuttle will preach in McDougall church at the same hour. It is the regular monthly exchange.

—Mr. O. R. Rowley, an inspector of the Bank of British North America, Montreal, who is in town, says his visit to Edmonton is simply to see the place of which so much is heard in the east and that so far as he knows, it is not the intention of the Bank of British North America to establish at the present time, a branch at this point which already seems to be well supplied with banking facilities.

SOCIAL AND PERSONAL

Mr. Dr. Ferris returned on Thursday from visiting relatives in Toronto.

Mr. and Mrs. John Ross have issued invitations for a large reception to be held in Rennie's academy on the evening of Friday Nov. 2nd.

Miss Norquay entertained a number of young people at her cosy little home on Eighth street last night.

Mrs. P. T. Butchart arrived home last night by C.N.R. after spending six weeks among friends at Yorkton, Sask.

Mrs. S. B. Woods gave a delightful luncheon yesterday. Among those who gathered around the artistically decorated table in the autumn shades of brown and green were Mesdames Nightingale, Swaisland, Wallbridge, Thibadeau, (Dr.) Smith, Miss Gascoigne.

Although the weather yesterday was not very propitious for calling, yet a number of callers wended their way to Government House where the gracious mistress, wearing an emerald WM. lovely gown of mauve chiffon, with overdress of white chiffon trimmed with tiny frills of silk eyelid embroidery, the bodice being composed of exquisite hand made lace, had a cheery word for all. The very attractive tea room was presided over by Mrs. Macdonald and her sister, Miss Kerr, of Calgary, who is visiting her at present.

DIED
 WATSON.—At Edmonton on Friday, Oct. 19, Anne Jane Watson, aged 58 years and 7 months. Funeral will leave residence, 629 Rice street on Sunday Oct. 21st at 2 p.m. for the Edmonton cemetery.

EDMONTON MARKETS.

Hay—Slough grass \$8 to \$10; upland prairie hay \$11 to \$14; timothy \$15 to \$18; oats, 22c to 25c; coal \$4.50 a ton; Potatoes 25c to 35c.

PRODUCE.

Edmonton Produce Co., quote eggs 20c butter 15 to 15 1-2c; Whitelaw & Co. quote eggs 25c, butter prints 20c, to 20c, tubs 15 to 20c; Gariepy & Lessard quote eggs 25c to 30c, butter prints 20c to 25c; tubs 15c to 20c; McDougall & Second quote eggs 25c, butter in prints 20c to 25c; tub 14c to 15c; Hudson's Bay quote eggs at 25c, butter in prints 21c to 22c; tubs 20c; Revillon Bros quote eggs 25c, butter in prints 20 to 25c, tubs 20c.

WINNIPEG MARKETS.

(Commercial)

Produce—Potatoes are scarce and somewhat firmer. Prices are from 45 to 50c a bushel. Carrots lots 40c; carrots 60c per bushel; turnips 25c per bushel; cabbage 9c a dozen; beets 50c per bushel.

The above are jobbers' prices.
 Cheese—Ontario is quoted at 15c to 15 1-2c; Manitoba at 15c.

Butter—Creamery is phenomenally high. The supply is short. Jobbers are asking 30c for choice fresh churned and 27c for bulk.

Dairy—Contractors are buying all the butter they can get hold of and market is very firm. Jobbers are paying 21c for select dairy, good yellow at 18c, pastry 16c.

Eggs are very scarce and have advanced 1 1-2c, fresh eggs bring 21 1-2c at Winnipeg; glycerinated eggs are quoted at 24c.

Poultry—Jobbers are paying live weight: Fowl 8c; chickens 12c; ducks 8; turkeys 14c to 16c at country points.
 Hides—Green country hides are quoted at 8 3-4c to 9 3-4c; sheepskins 25c to 40c.

LIVE STOCK.

Cattle—Receipts for the last week were 2205 of which 2074 were exported and 310 sent as feeders to the east. Best butchers 31-4c; lowest grades 3c. Good export cattle are 3-1c to 3-4c; cows 3c, weighed off the cars, Winnipeg buyers assuming freight charges.

Sheep—Receipts for the week 1200, choice muttons are 6c, lower grades 5c, lambs 7 1-2c.

Hogs—Live hogs from 150 to 250 pounds are bringing 7 1-2c; 250 to 300, pound hogs 6 1-2c off the cars at Winnipeg.

GRAIN AND FEED.

Winnipeg, Oct. 12.
 Business is quite brisk this week. Oats advanced another 1-2c, and barley has gone up. Flaxseed is 3c higher than a week ago. Demand for feed is very good, and oat chop is \$1 higher. There is no timothy hay offering. The lack of cars causes a scarcity in that commodity.

QUOTATIONS.

Millfeed—Bran \$16.50 per ton in bulk delivered to the trade; shorts, \$15.50.
 Ground feed—Oat chop, 25c per ton, delivered to the trade; barley chop 22c; mixed barley and oats, 24c; oil cake, 37c per ton.
 Oats—No. 1 oats, 34 3-4, No. 2 oats, 34 1-4c per bushel in carlots on track in Winnipeg.
 Barley—No. 3, 38c per bushel; No. 4, 36c per bushel, carlots on track here.
 Flaxseed—\$11.11 per bushel for No. 1.
 Hay—Fresh baled in carlots on track, \$9.10; loose hay, farmers' loads \$9.10; timothy, \$12.00.

SATURDAY, OCTOBER 20, 1906.

ENDORSING THE PRINCIPLE BUT DENYING THE PRACTICE.

The Christian Guardian gives prominence to an article by Rev. Dr. Chown, a high official of the Methodist church, in which he says:

"The whole policy which has been pursued in Canada for years of permitting speculators to obtain immense blocks of public land is hostile to the interests of the people at large. As human nature is constituted, such a course is not only productive of much wrong-doing springing out of the spirit of graft and favoritism which are incidental to such a system, but it is itself an injustice to the actual settler. A correct land policy is well stated in the report of the committee on sociological questions, recently adopted by the general conference of our church. The following is their deliverance:

"Your committee consider the memorial on the land question referred to it. Believing that 'the earth is the Lord's and the fulness thereof,' and that under the providence of God the state is a trustee whose duty it is to enact the conditions under which the divine gifts should be used for the benefit of all; we therefore condemn the handing over of large tracts of land to individuals and corporations without attaching conditions which would prevent their being held for speculative purposes only. Whenever vested rights are not interfered with we recommend legislation which will prevent any individual or corporation from profiting hereafter out of the unearned increment in the value of land."

"If the state is the trustee of the land for the benefit of the whole people and the people primarily or provisionally to the making of any disposition of it have equal rights in the land, then it is a matter worthy of serious consideration where it is not a violation of justice that any man or number of men because he or they happen to have for the moment command of a small or large sum of money, should be able to forestall the people and pre-empt the profit that should as far as possible come equally to them. It appears to us that the enjoyment of an unearned increment cannot be defended upon the principle of brotherhood, which should lie at the basis of all Christian civilization."

Dr. Chown has performed the somewhat unusual but no more commendable feat of attaching this resolution to a false introduction and the ethical character of the performance is not heightened by the circumstance that this unnatural alliance can be explained only on the ground that Dr. Chown's information is sadly out of harmony with his position, or that he has deliberately contorted that information for purposes forming no proper part of the duties of that position.

With the principle of the resolution few will be found objecting, save those whose personal greed outweighs all consideration of the general good. But if "the land for the settler" is a popular maxim in Canada today it is neither because General Conference discovered it, nor because Dr. Chown endorsed it, but because the present government of the Dominion carried the principle into actual administrative policy long years before General Conference embodied it in a resolution, or Dr. Chown sought to enforce it by misrepresenting the policy in which it is reflected.

Liberals least of all will be found criticizing the principle which has shaped and guided the land policy of the present government, but they will object strenuously to this policy being misstated even for the purpose of promulgating that principle. And when Dr. Chown implies that the policy "has been pursued in Canada for years, of permitting speculators to obtain immense blocks of public land," he states what ordinarily well-informed Canadians throughout the length and breadth of Canada know to be false, and what the writer himself must either have known to be false or must admit to indicate a lack of information hardly commensurate with the dignity of his position or the assurance of his statement.

tion, save on "conditions which would" and did "prevent their being held for speculative purposes only."

These facts Dr. Chown either knew or should have known. If he knew them he not only ignored or suppressed them, but purposely replaced them with a contrary statement; if he did not know he should take the earliest opportunity of tendering a public apology for his ignorance. That he did not know is under the circumstances, scarcely credible, and if, knowing the facts, he denied them, this can scarcely be taken either as a token of his regard for or of his anxiety to encourage the practice of the principle he professes to champion.

CURRENT COMMENT

A Conservative contemporary wants the method of administering the oath changed. Quite recently several prominent gentlemen of the same political persuasion have shown a marked aversion to taking the oath at all.

The Czar has officially disbanded the staff of "the Army of the Far East." The army itself was unofficially disbanded by another party some time since.

A man arrested in Chicago for robbery claims he is the son of a railway president. Perhaps he means that the infirmity is hereditary.

St. John Telegraph: Light is non-partisan. When publicity reveals the conduct which a public man intended to remain hidden, he makes his defence, and to some extent the manner in which that defence is received by the public depends upon the politics of the man who is on the defensive, to some extent only. The man who speculates with trust funds, and who subsequently pleads that the venture was a financial success, does not deceive anybody. He knows and his partisan friends know that the transaction is not to be defended, inasmuch as trust funds are not for use in that way, not to be risked that individuals may reap speculative profits. Everyone sees at once that if the speculation went wrong the trustees would be in the position of men who had embezzled money held in trust for the widow and the orphan. All efforts to defend such transactions, therefore, must be fatally weak.

Semi-ready dress clothes are the highest expression of art in tailoring

THE best tailor in town makes only 3 or 4 dress suits in a year. They are novelties with him, and their style and making are pretty much an experiment. That is why so many gentlemen look like writers when they put on dress clothes. The design of the Semi-ready dress suit is the work of a sartorial artist of the highest rank. The suits are tailored by men who do nothing else—they are specialists in the tailoring of dress clothes.

Semi-ready dress clothes are made of light-weight unfinished woads. The cut is delicately designed, as the parts are smaller than in any other style. The balance and lines are such as to show the figure at its best. The shoulders are broad yet natural form.

The Semi-ready dress suit is made with a longer lapel, rolling to within two and a half inches of the waist, with considerable convex on crease, and a softened point at bottom of lapel instead of the usual harsh point.

On account of the carefully designed lines, the coat adheres closely to the figure, the skirt is more sharply and sets smoothly over the hips.

The skirts are longer, tapering towards the bottom with slightly rounded corners. The illustration shows these lines.

If you wear a dress suit at all, it should be correct in style and tailoring. We would like to show you how sumptuous the Semi-ready dress suit and tuxedo are. Will you call in?

A Range That Burns All the Coal

MONARCH
MOST likely you have been throwing away good coal every day without knowing it. Coal that is only partially burned in the fire-box.

Because, with the ordinary range draft, the air current only strikes part of the fire.

Usually the damper door on such a range is situated at one end of the fire-box, which makes your fire hot at the draft end and cold at the other end.

Or the damper is perhaps on the left side of the stove, which makes an uneven fire for the same reason.

You are not only losing fuel, but your cooking and baking is unsatisfactory, for you cannot get a uniform heat.

Now, the draft in a Monarch Range is entirely different.

Instead of one damper door, there are two, one in each end of the fire-box.

These form a double or Duplex Draft, and both are regulated by the same handle.

So you get two direct currents of air at the same time, and your fire burns smoothly and evenly.

You open both drafts simultaneously and shut them off the same way.

The draft striking the fire from both directions consumes all the fuel, and gives you all the heating power from the coal.

When you empty the ash-pan in a Monarch Range, you are throwing away ashes—and ashes only—not coal.

And in addition to this, the Monarch is constructed of Steel and Malleable Iron, which can be fitted so tight and solid that no air-leaks can possibly happen as they do in cast iron ranges.

The top is Malleable Iron, polished and bright. You can keep it clean without smearing your range with blacking which gets on the cooking vessels, to make more work for you.

A \$1.00 Cook Book Free

The Monarch Cook Book, written by Mrs. Helen M. Thomsen, an acknowledged authority on domestic science is a Real Book, not a cheap circular. The pages bound in cloth on board covers—a book that would cost \$2.00 at the book store.

It contains 650 recipes, many of them new, all simple, easy to make and inexpensive. Has practical hints for the whole year and many valuable hints on diet and marketing.

You can get it without cost if you intend buying a range or cook stove within a year.

HOW TO GET IT. Cut out this advertisement, and fill in the name of the range or cook stove you wish to buy (stating month if possible) you expect to buy and you will secure this valuable book free. As the edition is limited, write now.

THE CHURCH AND ITS MODERN PROBLEM.

Toronto Globe: The attitude of the church to the acute forms of the problem of life today is touched at once with infinite sadness and with unconquerable hope. The pathos of it is in the magnificence of the church's claim to divine power, and the confusion and helplessness of the church's effort when faced by the problem of human trouble and need. The hope of it is in the persistence with which the church returns to its problem, and the eagerness with which it seeks the cause of its own failure. As at the foot of Transfiguration, the world still brings its problem of demon-possession and life-paralysis to the church; the testimony against the disciples today, as of old, too often "they were not able"; and yet, despite the failure and baffling and same of it all, the church goes back into its secret place and with an earnestness that will not fail nor be discouraged asks its own ageing question, "Why could not we cast it out?" When the church has that question on its lips and that burden on its heart there always comes to it a solving of the problem.

At bottom that problem is the same as of old. Its external appearance and concrete forms may change from age to age, but in those deeper elements that constitute the hardness and the darkness of life there is a monotony that makes the whole world kin. The changing of the industrial and social order changes only the face of the problem, while at its heart there is still the beat of human trouble and the pang of vain regret.

Today the situation which tries the skill and staggers the confidence of the church takes in the question of the saloon and the drink habit, of child labor and long hours and hard conditions, of eye-service and scamp work among employees and of unwholesome relations and grinding wages among employers, of dishonesty in trade, of exploitation in finance, and of malfeasance in public life. It is a hard problem, and behind it lies a still darker background of social life clouded with ignorance and stained with wrong.

But in the last analysis the problem is moral and spiritual. Its solution involves the laws of economics and the principles of politics, but its roots go down deeper into human nature than the expedients of social reformers can ever penetrate. The ideal of socialism is worthy, the self-sacrifice presupposed by communism is noble, the principle of anarchy is creditable to human nature, but none of these nor all of them working together will solve the modern problem and keep it solved for a generation. Much would be done by shorter hours and better wages and an improved social environment, but something more would need to be done or the last stage of our social situation might be worse than the first. It is a question not only of economics but of ethics, not only of improved conditions but of a clearer sense of duty and a will to do the right. As never before the truest friends in social reform and the foremost leaders in the labor movement are impressed by the fact that essentially and fundamentally the problem with which they deal is in its profoundest aspects both moral and religious.

That conviction which experience has wrought out gives the church its acknowledged standing in the presence of a disordered social system and an unjust economic condition. And if the church of today would stand unshaken in the presence of the need of today it must have in its leadership men of understanding and throughout its membership a spirit of love. The church as represented by the average pulpit still cuts a sorry figure in the midst of life's paralysis and pain. But the eager and passionate tone of its "Why?" is the note of hope alike for the church and the world.

But the church needs something more than a knowledge either of the facts of human need or of the secret of its own failure. The church may not pronounce on this or that land theory, and may be divided as to a political policy or a scheme of temperance reform. But what about lying and adultery and theft,

which its own ten commandments condemn and for which the Sermon on the Mount bespeaks a Gehenna? And what about the men who yesterday were under the white light of guilty exposure and who tomorrow will sit in the dimness and quiet where the preacher speaks the awful claims of right and truth? Has the church a message, not to a disordered social condition without, but to a concrete moral wrong within? Courage as well as knowledge is needed or the church can never master its modern problem.

WILL CONSULT CHURCHES.

The Archbishop of Rupert's Land returned to the city this morning from London where he attended the semi-annual meeting of the board of management of the missionary society of the general synod.

"The subjects discussed at the meeting of the committee were chiefly of a routine nature," said the Archbishop to the Press. "The general affairs and work of the missionary society come up for discussion and there are many less important matters which require the consideration of the members of the committee."

"A matter of rather more importance than usual was the consideration of the disposition to be made of the industrial and boarding schools, now carried on and maintained among the Indians of the country, and the manner in which this work is to be done in the years to come. This burden of carrying on this work and it is a heavy one and it has been felt as such for some years, especially at the present time when we are making strenuous efforts to keep pace with the development of the country and to supply the necessary churches and clergymen to the new settlers of the west."

"The opinion of our body as expressed at the meeting at London was to the effect that the time had come when the church should be relieved of this burden which we think should be assumed by the government of Canada."

It was decided that the Presbyterian and Methodist bodies should be communicated with and if the decision of these bodies is found to agree with ours, we will then ask the government to take action and we apprehend that the government will be ready to assume the duty which really appertains to the whole people. It is unnecessary to say that there will be some provisions in the agreement which we will ask for, but nothing to which objection should be taken. Mr. S. H. Blake, the chairman of our committee will correspond with the representatives of the Presbyterian and Methodist churches and will ascertain what the sentiments of these bodies are."

"The matter of the grants to be made to the western diocese was taken up and allocation of the sums to be asked from each. The grants in some cases, notably in the case of the diocese of Saskatchewan, increased, but the amounts to be asked from the various dioceses was not increased. It was not thought wise to ask for an increase at the present time."

The meeting was interrupted to some extent by the lamented death of Archbishop Bond of Montreal. I secured my railway ticket with the expectation that I would be able to go to Montreal to attend the funeral but I found it impossible to get away from London. The committee thought it better that I should remain as I was deeply interested in the business before the committee, as representing the great mission field of the west. A delegation was appointed to represent the committee at the funeral service at Montreal.

"An interesting meeting devoted to the missions, presided over by the Bishop of Qu'Appelle, was held in the city during our stay. Archdeacon Lloyd and Archdeacon Pentraeth being among the speakers. Archdeacon Lloyd spoke of the work in the new country in the new diocese very effectively. On Wednesday evening there was a service in the cathedral when I spoke. All the meetings were marked by a deep spirit of interest and great harmony prevailed throughout."

FARMERS MEET.

SOUTHERN ALBERTA. The second semi-annual convention of the Southern Alberta County Union of the Canadian Society of Equity was held at Claresholm, October 19th.

The House was called to order at 11 o'clock by President R. W. Wallace. A motion was made and carried that the president appoint three men to act as a Resolution Committee. Those appointed were Mr. Thompson of Leavins, Mr. Matheson of Rocky Mountain House, and Mr. Macdonald of Claresholm. The convention was adjourned until 1:30 p.m.

During the afternoon session the following important business was transacted:

The minutes of the last convention, which was held at High River, were read by Secretary J. J. Strang and approved by the house, after which the resolution committee was called upon to report. The following resolutions were framed by the committee and approved by the house:

Resolved that we ask all implement men who sell threshing machines to handle the Moose Jaw Cleaner or some

similar cleaner and that they be priced on such terms that the thrasher-men could afford to get them.

Resolved that we in convention ask the Dominion Government to take the tariff off from lumber, and also that we as farmers are willing to have our produce put on the free list. And that the general tariff be reduced to a maximum for revenue only.

Resolved that we ask the provincial government to build and maintain packing houses and cold storage plants within the province.

Resolved that we appoint a committee at our provincial convention to meet the millers of the Old Country and make arrangements with them for buying our surplus grain.

Resolved that we as a society object to the grain exchange trading in futures, and that we ask the provincial government to bring this matter before the Dominion Government and ask them to take steps in the matter.

Resolved that we ask the C. P. R. officials to grant all delegates of the Canadian Society of Equity reduced rates.

After the above resolutions were approved the matter of a loading platform came up. The secretary was instructed to inform Hon. C. C. Castle, warehouse commissioner, of the failure on the part of the C.P.R. Co. to build a loading platform at Claresholm and ask him to enforce the law in this regard.

Mr. Pearson, of Claresholm suggested that Local Unions in general and the Claresholm Local Union in particular be urged to wake up. This suggestion was loudly applauded and unanimously approved by the house.

The treasurer's report showed a small balance on the debit side, but six good Equity men headed by Mr. R. W. Wallace came forward with \$1.00 each and made it possible to start the new term free from debt.

A motion was made by Mr. Walton of Macleod and seconded by Mr. Pearson of Claresholm, that each Local Union be taxed \$2.00 to defray the expenses of a County delegate to the provincial convention which is to be held at Lacombe, Alta., on the 25th, 26th and 27th of Oct. 1906.

Mr. M. A. Strang of Claresholm was elected to represent the County Union of Southern Alberta at the provincial convention.

The following County officers were elected—R. W. Wallace, President; C. Thompson, Vice President; M. A. Strang, Secretary-Treasurer; M. A. Strang, General Organizer.

REWARDED FOR SHOOTING.

St. Petersburg, Oct. 16.—After investigating the killing of Mlle. Semenova, the young medical student confined in the central prison at St. Petersburg, who was shot dead by a sentry on Sept. 10, when she showed herself at the window of her cell overlooking the courtyard, the commander of the St. Petersburg, has thanked the soldier who killed the girl and has given a reward of five dollars. In addition, the soldier is upheld in the order of the day as an example to his comrades of the faithful performance of duty. The prisoners claimed that the sentry fired without any warning of provocation, while the sentry said he ordered Mlle. Semenova four times to leave the window where she and some of her companions were taunting members of the Semenovskiy regiment with the part they had taken in the suppression of the revolt at Moscow, which resulted in the assassination of General Min, who was formerly colonel of the regiment.

IN THE SUPREME COURT OF THE NORTH WEST TERRITORIES, JUDICIAL DISTRICT OF EDMONTON.

IN THE MATTER OF THE ESTATE OF THOMAS A. MYERS, INSOLVENT. NOTICE IS HEREBY GIVEN pursuant to the order made herein by the Honorable Mr. Justice Scott on the 4th day of October 1906, that all persons having claims against the estate of the said THOMAS A. MYERS, who made an assignment for the benefit of his creditors on or about the 6th day of September 1906, are required to send by post prepaid or to deliver to Messrs. Wallbridge & Macdonald, Edmonton, Advocates for the assignee, on or before the first day of December 1906, their claims and surnames, addresses and descriptions, the full particulars of their claims, and the nature of their securities, (if any) held by them duly verified by statutory declaration, and that after the said last mentioned date the said assignee will distribute the assets among the parties entitled thereto, having regard only to the claims of which he shall then have notice, and will not be liable to any person whose claim has not been received by him at the time of such distribution.

Dated at Edmonton this 4th day of October 1906.

WALLBRIDGE & MACDONALD, Advocates for the Assignee.

NORTH WEST DISTRIBUTORS

EXTINCTION OF THE BUFFALO.

At one time a buffalo overcoat was considered a necessity by those living in the North-Western States. In St. Paul one could buy such a coat for \$10. Today a buffalo robe is worth from \$200 to \$300. It was the pitiful sum of \$1.50 to \$4 each paid for their hides which tempted men to kill off the buffalo.

In 1870 the Pacific railroad had difficulty in operating its trains because of the enormous herds of buffalo which crossed their tracks. At first the engineers tried charging these herds; but derailed and crippled engines warned them that the buffalo were not to be brushed off the track in this reckless fashion.

After that the railroad trains were held up and passengers sometimes watched for two or three hours the enormous herds crossing the lines. They were quite inoffensive, and being unusually stupid beasts, were not at all frightened at the approach of man.

It was this stupidity that added the element of certainty to their extinction. Other animals when hunted grow wary of man and of the sound of his gun, but the buffalo never associated the presence of man or the gun's report with danger, and the hunter could easily follow a small herd, killing them off one by one until he shot them all.

This meant that a good hunter could kill from thirty to seventy-five buffalo a day. This meant a very large income, the promise of which drew thousands of men to the plains, and during the years 1872-74 millions of the animals were killed. In 1876 80,000 hides were shipped to the east from Fort Benton; in 1884 none were shipped. The year 1883 had seen the virtual extinction of the buffalo.

The Southern herds were exterminated first. They made their last stand in Texas, where, scattered over sparsely settled territory in diminished numbers, they offered little temptation to the professional hunter. Meantime the northern railroads were being pushed through, and the herds there were quickly attacked and exterminated.

In 1883 the last great herd of buffalo, estimated at 80,000, crossed the Yellowstone river, going north, and it is thought that they perished of hardship and disease. At all events they never came back, and they have never been heard of since.

The last great killing occurred in Western Dakota in 1883. A herd which at the beginning of the previous season had numbered ten thousand, had rapidly dwindled to one thousand, when in October Sitting Bull and his band of nearly a thousand braves from the Standing Rock agency fell upon this last bunch, and in two days wiped it completely off the earth. The buffalo had gone, but strangely enough not even the butchers were aware of it. There had always been buffaloes—thousands and millions of them—and there always would be buffaloes, they thought. In the fall of 1883 they nearly all fitted out as usual and went out to the range as confident as ever. But, alas! the plains which had for a myriad years echoed to the thundering tread of marching hosts were for the first time silent wildernesses. Buffalo wallows were there by thousands; buffalo trails crossed and recrossed the country like network; there were bleached bones almost as numerous as the blades of prairie grass, but the great picturesque beings which had peopled the plains were gone, and the insatiable butchers were at last forced to unload their useless guns and sheath their knives.

CANADA'S BIG BRIDGES.

Six miles above Quebec, near the point where the St. Lawrence, at low water, is somewhat less than 2,000 feet wide, a cantilever bridge is being built. As Brooklyn bridge had to yield the palm to the Fourth bridge in 1890, so now the Fourth bridge must yield it to the St. Lawrence. The central span of the Canadian bridge is 1,800 feet long, stretching almost from bank to bank. The central suspended girder is 675 feet long and 130 feet deep at the centre. The width of the anchor spans is 500 feet; of the approach spans 210 feet. Two tracks will carry the railroad traffic. There will be roadways for roads and street car traffic. So Canada will have the longest bridge span in the world.

The mammoth new cantilever bridge connecting Montreal with the south shore, which will cover nearly two miles and a half when completed, was started last week. The bridge, when finished, will be the largest in the world and will take two years to construct.

MR. DOOLEY ON PRINTER'S INK.

"Tis a wonderful thing," he says. "I see a bar'l iv printer's ink goin' into a newspaper office an' it looks common enough. A bar'l iv printer's ink, a bar'l iv linseed ole an' lamp-black. But I tell ye if all th' dinnymite, lyddite, cordite and gun cotton in th' wurld wuz hid behind them hoops there wudden't be as much disturbance in that bar'l as there is in th' messy stuff that looks like so much tar," he says. "Printer's ink! A dhrop iv it on awn little wurrd in type," he says, "will blacken th' fairest name in Christendom or," he says, "make a star to shine on the lowliest brow," he says. "It will find its way into millions iv homes an' hearts an' memories, it will go through iron dures an' stone walls an' will carry some message that may turn th' current iv ivry life it meets, fr'm th' Emperor iv Chiny to th' baby in th' cradle in Hannigan's flat," he says. "It may undo a thousand prayers or start a millyon. It can't be escaped."—The American Magazine for October.

GRAND TRUNK AT JAMESTOWN EXPOSITION.

Norfolk, Va., Oct. 19—Among the interesting transportation exhibits at the Jamestown exposition, to be held on the shores of Hampton Roads, near Norfolk, in 1907, will be that of the Grand Trunk railway, the pioneer road of Canada, and the only double track system of that country. Not only is this road to participate in the transportation display at the tercentennial, but they will have a special building to house their expensive exhibits.

Although the headquarters of this immense system is located in Canada, the company intend to have a display second to none, and with this in view they will erect a handsome building in a central location of the exposition grounds.

Mr. H. R. Charlton, advertising agent, and Mr. B. McE. Smith, southern passenger agent, of the Grand Trunk system, and officials of the Jamestown tercentennial, were in conference at the exposition headquarters in Norfolk, some time ago, and it was then decided by the company to erect a building, the plans for which to be immediately put into execution.

The decision of the company to participate in the exposition makes them the second trunk line to determine upon such a course, the Southern railway having decided to display a splendid exhibit of the varied resources along its thousand of miles of track. The Baltimore and Ohio railroad are considering an exhibit in engine construction, the plan being to give a graphic illustration of the progress made in this line of industry, by exhibiting the first engine ever used by the B. and O. alongside of one of their present day monsters.

The exhibit of the Grand Trunk railroad will be unique in that it will contain enlarged pictures of the summer resorts along their tracks, beautifully executed by noted artists, which in themselves will be works of art. Specimens of fish, game and other products so abundant in the regions through which the system passes will all be displayed. The feature of the display, however, will be the mineral exhibit. One from the great mines at "Cobalt" and "Ontario," called the "New Silverdale," on account of its great wealth of ore, will be made. This mine was opened last year and is considered one of the richest silver fields in the world.

PATERSON'S

COUGH DROPS
Take one when you feel the cold coming on. They give instant relief and they are pure and safe. Ask for the three-colored and they will cure.

THE INCREASED SUBSIDIES.

Premier McBride of British Columbia Withdrew From the Conference.

On Friday the real trouble with British Columbia began at the premier's conference in Ottawa. Premier McBride wanted the special claims of British Columbia for an extra subsidy to be referred to arbitration. On motion of Mr. Murray, seconded by Mr. Weir, a resolution was adopted stating that it was inadvisable that the claim of any province for subsidies be referred to arbitration. All the provinces voted for this except British Columbia so that it was lost by 8 to 1. Mr. McBride then laid before the conference the following declaration:

"I protest that the question of British Columbia's claim upon the Dominion government should not be considered by the conference but that it is a question between the government of British Columbia and the Dominion government."

Mr. Whitney moved, seconded by Mr. Murray: That in view of the large area, geographical position and very exceptional features of the said province of British Columbia, it is the opinion of this conference that the said province should receive a reasonable additional allowance for the purposes of civil government in excess of the provisions made in the Quebec resolutions of 1902, and that such additional allowance should be to the extent of one hundred thousand dollars annually for ten years.

This was discussed all day at Saturday's meeting. It was moved in amendment to Mr. Whitney's motion by Mr. Scott, seconded by Mr. Rutherford: "That the following words be added to Mr. Whitney's motion respecting exceptional treatment to British Columbia:

"In view of the very exceptional conditions of settlement existing in the province of Manitoba, Alberta and Saskatchewan, each of the said provinces should be granted for a period of ten years an allowance of fifty thousand dollars per annum in excess of the subsidies provided by the Quebec resolutions of 1902, as amended."

At this stage Hon. Mr. McBride withdrew from the further proceedings of the conference. The conference dividing on the above amendment, it was lost on division. The question then being put on Mr. Whitney's motion, the conference adopted it unanimously.

Provinces to Make Concessions.

Mr. Roblin moved, seconded by Mr. Peters: "That as a result of the deliberations of this conference with the representatives of the government of the Dominion of Canada: 1—This conference recommends to each legislature to abolish the special tax on commercial travellers, provided that this recommendation does not apply to any license payable under any act, concerning the sale of intoxicating liquors. 2—This conference also recommends that the legislatures of the several provinces shall make no discrimination in the taxation of companies incorporated by the province wherein such tax is imposed." (As to the second part of the above resolution Mr. Whitney and Mr. Murray stated that they desired to consult with their colleagues before assenting to it.) The resolution was adopted.

It was also resolved

"That a meeting of the prime ministers of the several provinces of Canada be held each year to consider matters of common interest, and that every such meeting shall be convened by the prime minister of the province of Ontario and the prime minister of the province of Quebec."

It was moved by Mr. Whitney, seconded by Mr. Rutherford, and unanimously resolved: "That the members of this conference place on record their hearty appreciation of the attention shown them by the prime minister of Canada and his colleagues, and of their efforts to facilitate the work of the conference."

Unavailing Attempt to Placate McBride.

After Mr. McBride left the conference on Saturday there was a conference between the Dominion Government and the provincial representatives. At the instance of some of the Dominion ministers Mr. Roblin was asked to get Mr. McBride to return to see if anything could be done in the way of satisfying British Columbia. Mr. McBride returned, but did not stay long, and then retired altogether, taking his papers along with him. The other ministers said that the British Columbia premier would not give them any data to go on and Mr. Whitney told him in conference that he was neither frank nor candid.

What the Dominion Will Do.

Sir Wilfrid Laurier informed the provinces that he would not be able to give them all that they asked. He

EDMONTON BULLETIN, SATURDAY, OCTOBER 20, 1906.

PAGE 1.

could not accede to the financial resolutions of 1902, but he would give them what was asked at the conference of 1887. The difference was that in the latter there was no amount to be referred to arbitration, while in the resolutions of 1902 they asked for 202c a head for this purpose. Along with Mr. Fielding he said that he would visit England next spring, and arrange for an amendment to the British North America act. The premier touched upon the other subjects taken up at the conference.

Taking the 1887 resolutions the sums that the provinces will hereafter receive will be as follows:

Specific subsidies for general and civil legislation, Ontario, \$240,000; increase \$160,000; Quebec \$240,000; increase \$170,000; Nova Scotia \$150,000; increase \$120,000; New Brunswick \$180,000; increase \$130,000; Manitoba \$180,000; increase \$130,000; British Columbia \$150,000; increase \$115,000; Prince Edward Island \$100,000; increase \$70,000.

On the per capita tax the subsidies will be as follows: Ontario \$1,746,357; increase \$622,484; Quebec \$1,319,115; increase \$423,865; Nova Scotia \$367,659; increase \$47,659; New Brunswick \$264,896; increase as yet; Manitoba \$203,357; increase; British Columbia \$140,225; increase; Prince Edward Island \$82,000; increase. This makes an increase for the old provinces of \$1,107,008 in the per capita subsidies, and of \$905,000 on the specific, or a total increase of \$2,012,018. To this will have to be added the \$100,000 special grant for British Columbia and also the increases for the two new provinces which will be \$180,000 for each, or a total increase to all provinces of \$2,374,018.

\$130,000 a Year for Alberta.

Manitoba and the two new provinces of Saskatchewan and Alberta do not profit as yet by the increased per capita subsidy because they have not yet reached the maximum figure fixed by the arrangement which is now to be retired; but hereafter they will each get a specific grant of \$180,000 annually for legislation, in place of \$50,000 as heretofore. They will thus each get \$130,000 a year more from the Dominion treasury.

The specific subsidy under the new arrangement is based on 190,000 for a population of 200,000, \$10,000; of 400,000, \$10,000; of 1,000,000, \$20,000; and over that figure, \$240,000. The new per capita subsidy is based on 80 cents a head until the population is 250,000, and over that 60 cents a head. To make these changes requires an amendment of the B. N. A. act.

Ontario's Special Memorandum.

The special memorandum put forward by Mr. Whitney for Ontario made certain representations. In the first place Ontario declared it was in favor of some definite and permanent arrangement regarding the subsidy question so as to do away with periodical applications for rearrangement of the subsidies. The province did not agree in the idea that the B. N. A. act should not be changed. It would be strange, says the memorandum, if the fathers of confederation should legislate for posterity and so bind provinces which came into existence afterwards. The income of the Dominion from customs and excise should be taken into consideration in defining the subsidies. The Dominion was not burdened with the responsibilities of an independent nation. The provinces spent money for immigration and pay their share of the Dominion expenditure on the same work. The expenditures of the province must go on increasing while the revenue of the Dominion goes on increasing. Some of the provisions of the Australian act of union were cited. Because of the amount of customs revenue collected in Ontario compared with the expenditure on railways by the Dominion, special consideration should be given to the province. In future there should be no special grants. The claim for administering the criminal law had merits. What Messrs. Whitney, Foy and Matheson, who signed the memorandum, wanted was a settlement on a just and equitable basis to all the provinces.

The memorandum informally handed in by the premier of British Columbia asked for an extra subsidy beyond that given the other provinces of \$1 per head until the amount reached \$300,000 per annum. After 40,000 population was reached it was to be 75 cents per head until \$500,000 was reached, where it would remain until the population was one million and a half; then 50 cents until \$600,000 was reached and until the population became 2,500,000; and afterwards 25 cents per head in perpetuity. There was no resolution putting this to the conference, but as soon as Mr. Whitney's resolution giving British Columbia \$100,000 extra was put, Mr. McBride withdrew. This was the only incident that marred the harmony of the proceedings from the opening address of welcome by Sir Wilfrid Laurier down to the singing of God Save the King in the conference and the clinking of glasses with Hon. J. P. Whitney in the Ontario room last evening.

The Manitoba premier, who presented his own case in a brief and business-like way, did his best to get Mr. McBride satisfied, and Premier Whitney lost satisfaction with the man from the Pacific slope.

It was hinted before Mr. McBride left home that he was to play "A lone hand" for effect in the approaching general election in his province rather than to get all he could in the way of a subsidy, and evidently Mr. Whitney saw something of this kind going on when he told the British Columbia premier that he was neither "frank nor candid."

Another Conference on Boundaries.

Sir Wilfrid Laurier arranged with Premier Roblin and Attorney-General Campbell as well as the other provinces

Western News

An analysis of Regina's milk supply showed on sample in four infected with typhoid germs.

The United States government crop report for October estimates the yield of spring wheat at 739 millions, an increase of 47 millions over last year.

Red Deer carpenters have organized a branch of the Amalgamated Society of Carpenters and Joiners. A. Reed is president and J. M. Bowen is secretary.

Regina School Board will build a new \$40,000 school in the north end of the city. It is also proposed to erect a collegiate institute to accommodate 600 pupils, after the model of the Hamilton collegiate institute.

Of the total 55,502,730 bushels of wheat that passed through Port William and Port Arthur last year, 16,537,661 passed through Georgian Bay ports, and 16,036,592 by other Canadian ports. The remainder went by American ports.

Of the 52,125 cars of wheat shipped to Port William and Port Arthur last year the grades were as follows: No. 1 hard, 615; No. 1 Northern, 28,991; No. 2 Northern, 11,541; No. 3 Northern, 1,917; rejected for smut, 6,492; rejected for seeds, etc., 1,559; no grade and sundry, 910.

East and West: Ninety-six thousand immigrants during the present season of navigation (up to September 30) have been landed at Quebec, which is the largest immigration in the history of the St. Lawrence. Eighty-five per cent. British have arrived, the largest yet, and out of the total immigration only about six per cent. were booked for the United States.

From September 1st, 1903, and August 31st, 1906, 42,537,536 bushels of wheat passed through the elevators at Port William and 12,922,184 bushels at Port Arthur. The year's receipts of grain at the two ports aggregated 55,731 cars, of which the C.P.R. hauled 43,976 cars and the C.N.R. 12,775. Of the number of cars shipped 52,125 cars were wheat alone.

Mr. W. H. Footner, of the Calgary Albertan, has returned from his three months' trip through the Peace River country. In all he covered about sixteen hundred miles, penetrating as far as Pouce Coupe Prairie, in the foothills of

the Rockies, where only a few white men have seen. He is full of enthusiasm respecting the wonderful future of the north. His impressions of the country will shortly appear in the Albertan.

Swan River Gimlet: Peter Verigin, head of the Doukhobor colony, was in town on Monday and made a brief call at this office. Though unable to speak English, Mr. Verigin displays an intelligent and lively interest in the affairs of the day, and through his interpreter, is in the habit of asking questions, which by their direct application to the matter at hand, convey the impression that one is conversing with a man who, to use a common phrase, "knows where he is at." The Doukhobor chief and party made their appearance in town with considerable eclat, the chief driving a four-in-hand attached to a large surrey. Unlike the usual four-in-hand, however, the horses in this case were all abreast, and the equipage, drawn by the four black horses, presented quite an imposing appearance.

WHY WE DON'T BREAK THROUGH THE CRUST OF THE EARTH.

(By Prof. John Milne, F.R.S., the eminent British seismologist.)

My experiments and those of others in recording earthquake tremors indicate that our earth is at least twice as rigid as steel. We always find that seismic waves from points on the globe nearly opposite us travel much faster than any other waves because they pass near to the earth's centre or region of maximum rigidity. On the other hand we find that waves from points on our own side of the globe travel to us more slowly, since they come along shallow chords in the less rigid region.

These phenomena, invariably noted at all our seismic observatories, entirely upset the old theory that the earth's interior is a freely moving liquid and demonstrate apparently or crust is a mass very much more rigid than the crust itself.

It is so hot that everything would melt if it could. And everything does melt in a certain limited region, a sort of viscous layer, pasty in its upper parts and solid down below.

This core is due to the pressure above, which at a depth of two hundred miles below the earth's crust amounts to six hundred tons to the square inch—probably enough to squeeze the molten rock and metal back into a solid state.

The earth's crust is quite elastic. It yields under the enormous pull of sun and moon. But a solid steel shell 312 miles thick would yield just as much, perhaps more.

---COAL--- A SECOND CROW'S NEST

Coal is actually today the greatest commodity of the world. With coal we run our mills and factories and our great railroads; with coal we propel our ships, provide our navies, and warm our homes; with coal we generate and produce electricity, with a few exceptions, where water power is available, but there are not very many. Niagara Falls, however, with coal we produce iron, copper, lead, silver, gold and all other metals that we need, and must have, because all of these metals are to be found mixed in with the rock and in the ore.

Without coal we could not make coke, and coke made from a certain kind of high class bituminous coal is the only fuel yet known to man that produces a heat intense enough to melt iron and hard rock into a liquid, by which process we are enabled to extract the metals we need.

England would not be the great world power she is today if it was not for her inexhaustible supply of coal.

Coal is the basis of industrial and commercial wealth.

Coal-mining in British Columbia has always been a great success. It is a great deal like diamond mining in South Africa—a bonanza of the first magnitude.

The great mountain barrier of the Rockies shuts out the eastern coal fields, excepting a small tonnage from the State of Washington of a very inferior quality; in fact, so poor that the United States navy of the Pacific division get all of their supply from the Dunsmuir Coal Mines on Vancouver Island, and pay the duty on it, but neither the Washington nor the Vancouver Island coal is of any use for furnaces and smelters' coke, because the coal from both of these places contains a great deal of sulphur, and does not make good smelters' coke.

Nevertheless Dunsmuir made millions after millions every year from mining coal, and died a few years ago the richest man in Canada. He made it all from coal, and his mines will be productive for generations to come, and are worth more today than thirty-five years ago, when first opened up.

OPPORTUNITY.

To see it, and grasp it in time, makes a man the master of his destiny. DO YOU WANT TO MAKE MONEY HONESTLY, AND LOTS OF IT? Would you like to become interested in a coal proposition in British Columbia, and make \$10,000 in three to four years from now on an investment of \$250,000? We offer you the opportunity to do this.

You have \$200.00, \$500.00 or \$1,000.00, whatever the case may be, in bank, drawing 3 per cent. interest yearly. Does this satisfy you, when you can many times double your money in one year in investment like this we offer you?

PUT YOUR SAVINGS IN COAL. It is safe, and as good as Government bonds. There is no "if" about coal mining. There never was known a failure in coal in British Columbia. If quantity and quality and shipping facilities were assured, and the business was managed right and honestly.

The price of coal and its commercial value is always advancing from year to year, whereas the demand is increasing enormously every year.

Millions and millions of dollars have been made in coal mining year after year by all those engaged in the business, and to prove this we refer to the statistics on hand for the year of 1902, where it is shown that nine of the leading bituminous coal mines in the United States and Canada made the enormous profits of \$87,450,627 (one year's earnings).

There is no field of investment more absolutely safe and profitable than coal mining.

We now offer to the public 100,000 shares of the British Columbia Amalgamated Coal Company's treasury stock at the low rate of

TWENTY-FIVE CENTS PER SHARE.

The par value of this stock is one dollar, and is fully paid and non-assessable, and shareholders are exempt from personal liability. Once paid and secured it is settled for ever.

This Amalgamated Coal Company controls 17,500 ACRES OF COAL LAND in Nicola Valley, B.C., and according to coal experts' reports, this great area is underlain with inexhaustible quantities of high-class bituminous coal, the best for steam, black-smithing and cooking purposes, estimated to contain approximately 1,400,000,000 TONS OF COAL.

TWO RAILROADS.

are now building into the Nicola Valley, the Canadian Pacific and the V. V. and E. (Great Northern) and the C. P. R. has already constructed and completed a line from Spence's Bridge, on Thompson's River, to Nicola Lake, a distance of about thirty miles, whereas the V. V. and E. are rushing the work as fast as money and labor can do it, and it is expected to reach Nicola by Christmas.

This is certainly a rare opportunity for the small investors. For \$250.00 you can now buy 1,000 shares of the Amalgamated Coal Stock, which in a few years may pay you a yearly revenue of income of \$10.00, figuring the dividend at \$10.00 a share (the Crow's Nest Coal Company paid a dividend last year of \$10.00 a share). This is an illustration to show what a few hundred dollars invested in coal stock means to investors. The Crow's Nest stock was offered to the people in the year 1866 at ten cents a share, and is today worth over \$300.00 or \$300,000 for 1,000 shares. You can get 1,000 shares of our stock today for \$250.00, which may be worth as much as the Crow's Nest is today if you hold it long enough. "Do you realize what this means for you? That the British Columbia Amalgamated Coal Company's stock will reach the \$100.00 mark in from six to seven years from now is the belief of those who have seen and examined the properties and are familiar with the local conditions in that country. Get in on the ground floor. Act quickly, and do it now. Do not ask your neighbor for his advice. Use and act on your own judgment. It will soon be taken. Call early or write, and we will give you any further information that you may desire.

BETTER THAN LIFE INSURANCE.

A source of income that will last as long as you live. An asset that you can leave behind you for your friends and relatives. Have you a wife, a dear child, a sister, brother, or friend, whose welfare you have at heart? If so, why not invest \$50, \$100, or \$200, or any sum you can afford, in this coal stock, and get a certificate issued in their names; that will give them an income for life.

TWO YEARS FROM NOW.

the stock should begin to pay handsome dividends, and in another year or two may have a cash valuation on the market from the dividends it then will pay of at least \$10.00 per share. This calculation is based on sound and conservative business judgment, and on well-tried laws of natural growth. It is quite safe to say that when the Amalgamated Coal Company shall have fully equipped its properties on Cold Water River, in Nicola Valley, B.C., and has built up a market for its product, and can produce coal and coke on a large scale, which may require six to seven years to accomplish (taking the Crow's Nest Coal Company as an example), this stock should then be worth on its own merit, from the dividend it then will pay, \$100.00 per share.

Opportunity knocks once at every man's door. To see it and grasp it in time is the keynote to success and wealth. This is meant for you.

This is your greatest opportunity. Fathers, mothers and guardians, who have the welfare of your children at heart, and want to provide for their future needs, write us for information, and investigate our proposition carefully. You will find us reliable for the advice given. Ask or write for printed prospectus and related for the advice given. Ask or write for printed prospectus and related for the advice given. Ask or write for printed prospectus and related for the advice given.

RECOMMENDED BY BANKERS AND MERCHANTS. as the safest and best investment on the market today, which is being offered to the public at large. We want men and women of moderate means to get interested in this great enterprise, and to get in now, on its first inception.

Remember, for \$250 you will get one thousand shares of Amalgamated Coal, which will secure for you and your family a source of income, and may make you independently rich. Remember, 1,000 shares of Crow's Nest Coal Stock is today worth \$285,000 and, brings a yearly revenue of over \$10,000.00.

PROTECTION TO SMALL SHAREHOLDERS IS SECURED BY THE LAWS OF BRITISH COLUMBIA.

Under British Columbia laws every Coal Company mining for coal and oil in that country must file with the Minister of Finance, a certified copy of their articles of incorporation, of a foreign company, and also of the by-laws; in other words, the company has to register within the borders of the law, before they can transact business. They are subject to inspection every Province, and produce coal, and the Government agent, to whom a sworn statement must be made, and a tax of five cents per ton paid to the Government for every ton of coal mined. This protects the small stockholders, as everyone interested, whether he may be the owner of 10,000 shares or only 100 shares, has the right to know at all times just what the company is doing, and there is no possible way of the company adopting, with any success, a "freeze-out" game. The Government being an interested party, much greater protection is afforded the small investor than in any other country.

We cordially invite you to call at our office, No. 61-62 Confederation Life Building, Toronto. If you cannot call, please write us, and we will mail you prospectus, reports, maps, etc., that will give you all information you may desire.

TORONTO.

A HINDU ON HINDU IMMIGRATION.

Victoria Times: There was a little young man in Victoria yesterday with a big mission. His name is a large one—T. C. Mazoomdar. Slim, with dark, flashing eyes, a complexion with the nut rudeness of a southern Italian, prominent teeth, with a tinge of blue, and lips with an Austrian mobility, this young undergraduate of Allahabad University was noticeable wherever he went. There was no sign of the typical Hindu. He wore a fashionably cut suit of light grey, the latest in neckwear and a soft hat to match.

This emissary from the Hooghly district of Bengal comes to British Columbia representing that great presidency of India. And for what? To inquire into the merits of British Columbia as a field for emigration of his people. He was frank in admitting this and said if his report proved favorable there was no limit to the number that might come. Mr. Mazoomdar is well acquainted with those who have arrived; he has the actual number at his finger ends. "There were about nine hundred landed at Vancouver," he said, "and a few, about fifty, at Victoria. Some, about fifteen, went first to San Francisco, and came to British Columbia from there. I don't know their names yet, but can get them from my people."

"Who and what are the Hindus that have already come here?" was asked. "They are Punjabi Sikhs," was the reply. "All soldiers, British soldiers. They helped England at the time of the mutiny. They went to the Boer war. They are loyal to the British flag."

"And what was their occupation in India?" queried the reporter.

"Oh, farmers—wheat and rice farmers. Some of them know about growing sugar, too."

"Were they able to get a living at home? Why do they come here?" came another question.

"They made a living—a small one—some six, some ten dollars a month. Each had his little farm, grew little crop; yes, they lived all right."

"If they were all right in the Punjab, why did they leave?" the reporter remarked.

"It was the men in Hong Kong, the Hindu police. Someone told them, maybe they read, some can read English, that labor was scarce in British Columbia, that a man could get from two to three dollars a day. Wasn't that better than the wages they got at home?"

"And who arranged for their coming out?" was asked. "We hear there is a company or association formed to bring them here, that someone in this province was arranging for their coming."

"That is not so," replied Mr. Mazoomdar, "they come here themselves, come in batches."

"Are there many more coming that you know of?"

"Oh, yes, about a thousand. They won't all come at once—just in batches."

"But what is your special mission here—what are you going to do?" seemed a pertinent question to put at this stage of the interview.

"Me, oh, my people—the communities of Bengal—sent me here to find out how my countrymen were getting on, if it is a good country—what chances there are for work—if the people of India can make progress here."

"And I suppose you will make a report on the matter?"

"Of course, that's what I am here for. I shall spend about two months in British Columbia, talk to all of them, and then write back what I find out."

"If your report is favorable, will many more come?"

"Yes, certainly."

"How many?"

"I couldn't say at all. If this is a good country to come to, there need be no limit. There are lots who will sell their farms to pay their passage the same as those who are here already."

Dr. G. L. Milne, Dominion Immigration Officer here interpolated some good advice. He pointed out the provisions of the immigration act, that anyone diseased or liable to become a public charge could be deported upon landing or at any time within two years after.

But Mr. Mazoomdar seemed well acquainted with this. "I know that," he said. "You have sent about 150 back about one third of these are starving in Hong Kong. They haven't enough money to get home."

"And all that are in the conditions I mentioned will be sent back," said Dr. Milne.

"Do you think your countrymen understand that?" questioned the reporter.

"Well, if they don't now, they soon will," replied Mr. Mazoomdar. "I will write to my people and tell them—tell them to see that the steamship agents don't sell tickets to those who you will not let land."

There was a voice of unrest under Mr. Mazoomdar's apparent composure. It does not require much imagination to believe that he is an emissary to some concerted movement to bring a large number of Hindus to this province. Those that have already arrived are evidently not of such a position in life to warrant a special overture without some charitable motive. Mr. Mazoomdar does not mention philanthropy—He is strictly business.

JAPAN AND CHINA.

China Now Wants Manchuria Restored to Her.

London, Oct. 18.—It is freely asserted in diplomatic circles here that serious trouble is brewing between Japan and China.

The British minister at Peking, it is declared, has notified the British government that China is preparing a note to the powers asking them to compel Japan to restore Manchuria to her. According to the report here, China some weeks ago sounded all of the powers as to whether they would receive such a note and it is understood that representatives abroad of the Chinese nation were informed that if properly presented it would receive every consideration.

China takes the position that at the outbreak of the Russo-Japanese war the Mikado's government made public the declaration that the war was a "holy" one, and was undertaken for the purpose of preserving the integrity of her neighbor threatened by Russia. Japan won and since the treaty of Portsmouth was signed has gone right ahead with her preparations for the Japanizing of not only the entire province of Manchuria, but of the adjacent provinces. China now fears for her independence, diplomats assert, and her only hope at this time is intervention by the powers.

She is preparing for war, but with little hope that she will be able to do much against Japan should it be necessary to fight. However, the diplomats of China are willing individuals. They know that Europe is jealous of Japan, and they also know that Japan is nearly bankrupt.

First the war, then famine, then floods, all come to tax the financial resources of the Mikado's people, and the Chinese officials feel that if the powers were to join in a note to Japan to have Manchuria restored to her, she would accede to the request.

THE GRILL CAFE

on 1st Street, next to Journal Office

Newly decorated with pictures, flowers, palms, and a fine grand upright piano.

OUR SUNDAY DINNER IS THE TALK OF EDMONTON.

35 dishes for 35c.

The largest, most tasty and best served meal in town. Private sound proof dining rooms.

WHERE ROBLIN GOT IN.

Mr. Shepley, the mild mannered, but pertinacious lawyer, who is conducting mission, displayed some curiosity the the investigations for the insurance Commission day as to the actual ownership of a block of some nine thousand acres of land bought by "the Union Trust Company" in the autumn of 1903 from H. W. Whitt, a barrister of this city. Mr. Foster who had himself made the purchase had clean forgotten this little of the transaction; and in reply to Mr. Shepley's gentle proddings he declared that if he were given a week he would be able to recall whether Mr. H. W. Whitt was acting for himself or a client.

It is a minor matter that Mr. Foster's memory, usually so good, should have failed him at this particular juncture. His evidence was highly interesting and had an added element of piquancy in it in reply to Mr. Shepley's had admitted that Mr. Whitt had been acting for a client, and that the real owner of the lands was one Rodmond P. Roblin, then and now Premier of Manitoba.

This is, we believe, the fact. The land in question is the Swann River country; and it has always been understood by the people of that district that despite any nominal claims of ownership by other parties, it was the property of Mr. Roblin until it passed into the hands of the Union Trust Company. This land was originally Northern Railway; it then passed into the property of the Canadian Mr. Roblin's hands; and was turned over by him to the Union Trust Company at a tidy advance of some \$2 an acre, or twenty thousand dollars. It is not everyone that can pick up big chunks of money like this.

It will be claimed, no doubt, that the whole transaction was perfectly legitimate. Quite likely it was in one sense, Canadian Northern lands being on the market for sale. R. P. Roblin had a legal right to buy them; and the Union Trust Company being in the market to buy land and pay a good price for it (when offered by the right parties and proper concessions as to commissions, etc.) Mr. Roblin had a legal right to sell his land to them at any figure he could induce them to pay. We have no desire to challenge either statement.

But stay. In the case of public men other considerations than strict legal right enter into the judgment that is passed by the people. The genuineness and the propriety of the acts of a public man are always subject to popular review; and it is just possible that the public might not consider it strictly regular that the Premier of Manitoba should have private business relations with the Canadian Northern railway, which has been a yearly applicant for favors from the Manitoba Legislature which is under the control of the Premier of Manitoba. Mr. Roblin evidently thought so himself when he kept his name out of the transaction.

How pleasant and profitable it has been of late years to be a Tory politician with a railway pull! To him there need never be any of that shortage of cash which is one of humanity's chief afflictions. When the bank balance ran low he had only to buy a block of railway lands upon such terms as an obliging railway president could be induced to grant, and then turn it over at an advance of a dollar or so an acre to the still more obliging George E. Foster, who had been given the millions of dollars, piled up by the Forsters, to pay death claims with, in order that he might go use the money as to make all the good little Tory boys happy.

Mr. Foster and his associates (all Tory M.P.s) got their land from the C.P.R. and unloaded it upon the Trust Company, pocketing a king's ransom by the turnover.

Mr. Roblin bought from the Canadian Northern; and found a ready purchaser in the Union Trust Company at a price which netted him a very tidy sum.

The get-rich-quick politicians thus worked both the railway companies indiscriminately. All railway presidents looked alike to them. But when it came to selling at a good fat price, there was only one place to do business. This was at the counter of the Union Trust Company, where Mr. Foster took over the land and shoved the good Forster money into the hungry hands that were held out for it.

Mr. Foster, generous and noble of heart though he is, did not give all the money away. He always left some to play with himself. In this little matter of the 9,000 acres for instance 25 cents for each acre rolled in to his own pocket. However, the vendors made no objection to this. How could they be stingy with generous George?

Happy halcyon days for George and the rest of the Tory patriots, now gone alas, never to return.

MAY CHANGE THE ROUTE.
Ottawa, Oct. 19.—An interesting deal has just transpired in connection with the mission of the transcontinental railway commissioners to Winnipeg, which is to select a site for the proposed terminals. It appears that although the original location of the G. T. P. for its line was between Portage La Prairie and Winnipeg, it is now desired to make a change. An application has been made to the minister of railways and canals for the approval of a new location on the south side of the river but pending the decision of the transcontinental commissioners as to the location of the Winnipeg terminals, the minister has declined to act upon the company's application.

WOULD EXTEND THE FORCE.

Toronto Star—Rev. J. G. Shearer, general secretary of the Lord's Day Alliance has returned from a two months' trip through the west.

In connection with the work of the Lord's Day Alliance, he said to a Star reporter:

"There has been a steady growth from the beginning. There are now 150 local branches in as many cities, towns and villages in the four Western Provinces. Rev. W. M. Rochester, the new western secretary with headquarters at Winnipeg, will give all his time to these four provinces, in addition to the attention Mr. Moore and myself may be able to give. This trip was to introduce Mr. Rochester to his co-laborers and to his work. Most of his time will be given to British Columbia and Alberta.

"The passage of the New Lord's Day Act has given a great impetus to our work, and is highly appreciated by the great mass of people in the west. It will be more needed as the number of immigrants from foreign countries increase, although already some of the new comers, especially Americans are showing their appreciation of our quiet Sabbath and of the thorough-going way in which our laws are enforced. It is really a revelation to them. What staggers them is that one R.N.W.M. policeman can control a whole district."

In fact Mr. Shearer was so impressed with the efficiency of the North West Police system that he would like to see the force introduced into all the rural districts of Canada.

SOME OF EDMONTON'S GRANTS.

(Calgary Albertan)

Calgary does not very often look to Edmonton for bright and shining examples, but in some cases the people who are at the head of affairs might do so with some profit. The last list of expenditures shows that the city council gave \$1,000 for the entertainment of the Canadian Manufacturers' Association. No person ever heard an objection to it. In Calgary the initial grant was \$100. Even to such a grant some objection was made. Then it was raised to \$500 and more objection was made. After some lobbying and considerable effort this was raised to \$750 and after certain persons in this town nearly collapsed.

The Calgary city council treats with little consideration, the Calgary board of trade in doing much of its work. The Edmonton city council endows very liberally the board of trade which works in connection with it.

The Calgary city council has nothing at all for the exhibition board, while the Edmonton council last year put up \$5,000 to advance its interests.

No person suggests lavish expenditure. But assistance to those deserving institutions which may be dependent upon to advance the interests of the city, should receive more encouragement from our municipality.

TOMORROW IN THE CHURCHES.

GERMAN BAPTIST—Corner N. Mayo and Isabella street. Rev. A. H. Hager, pastor.

BAPTIST CHURCH—Third street north. Public worship at 11 a.m. and 7 p.m. The Rev. A. M. McDonald preaches morning and evening tomorrow evening, "Four Milestones in the Road to Happiness."
